The Grand Inauguration

The ribbon cutting ceremony by (from left) Mr. Rohit Shah CEO of Bhavya Machine Tools LLP, Mr. D. Kannan - Vice President of Sahajanand Laser Technologies Limited, Mr. Chandra Sekar - General Manager of S&T Engineers Pvt Ltd, Mr. Dinesh Chaudhary - MD of Energy Mission Machineries (India) Pvt Ltd, and Mr. Indraneel Bhattacharya - VP – Marketing of Lakshmi Machine Works Limited.

The lamp lighting ceremony. (from left) Mr. Rohit Shah - CEO - Bhavya Machine Tools LLP, Mr. Dinesh Chaudhary - MD - Energy Mission Machineries (India) Pvt Ltd, Mr. Indraneel Bhattacharya - VP – Marketing - Lakshmi Machine Works Limited, Mr. D. Kannan - Vice President - Sahajanand Laser Technologies Limited and Mr. Chandra Sekar - General Manager - S&T Engineers Private Limited.

There were 86 exhibitors from the machine and tools industry who showcased the latest products and technologies at the AutoCluster Exhibition Centre.

The 6th edition of the Pune Machine Tools Show (PMTS) witnessed a good turnaround throughout the 3 days of exhibition at the AutoCluster Exhibition Centre in Pune. The total number of registered visitors was 11,500. The event showcased the latest technologies and trends in the global machine tools industry. Pune being a strategic location & India's automotive hub is an ideal location for exhibitors from across India to participate in the PMTS and show their latest products and cutting-edge developments.

Key Statistics of the PUNE MACHINE TOOLS SHOW 2023

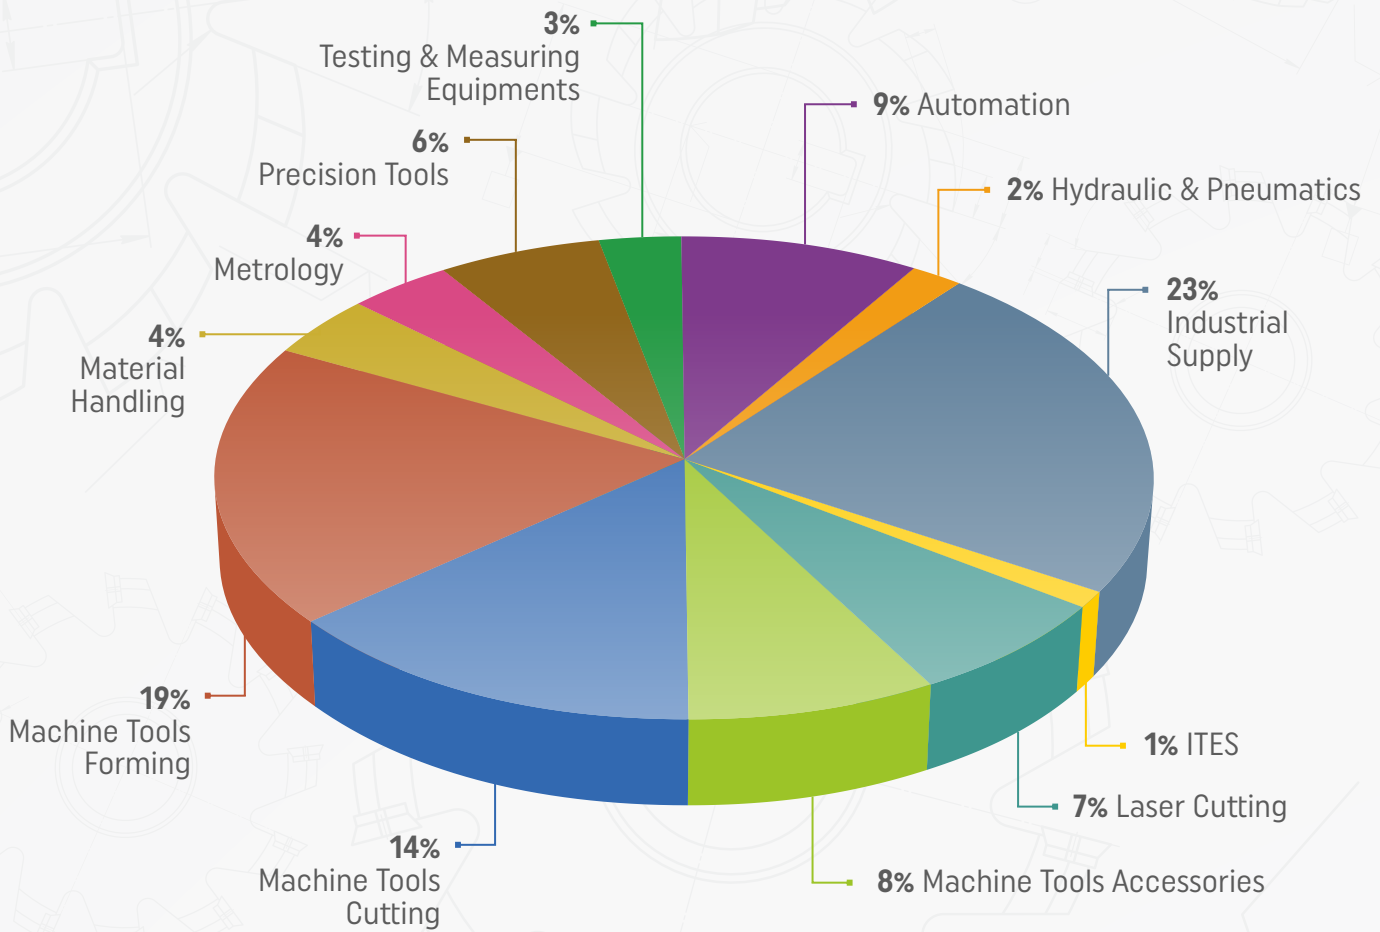

Exhibitor Goal Achievement

Exhibitor Profile

Category-wise Bifurcation in %

CATEGORY	NO. OF EXHIBITORS
AUTOMATION	8
HYDRAULIC & PNEUMATICS	2
INDUSTRIAL SUPPLY	20
ITES	1
LASER CUTTING	6
MACHINE TOOLS ACCESSORIES	7
MACHINE TOOLS CUTTING	12
MACHINE TOOLS FORMING	16
MATERIAL HANDLING	3
METROLOGY	3
PRECISION TOOLS	5
TESTING & MEASURING EQUIPMENTS	3

Exhibitors Speak

“We are participating for the first time here but I think we missed the last 5 exhibitions! It has been a too good show! From the Day 1 we are able to get quality people who know what they want.”

Mr. Maulik Patel
Executive Director
SAHAJANAND LASER TECHNOLOGY LIMITED

“We have almost 500 machines working here. With K & D exhibitions, we always have very good response.”

Mr. Dinesh Chaudhary
Managing Director & Chief Executive Officer
ENERGY MISSION MACHINERIES (INDIA) LIMITED

“In this exhibition after Corona, the response of people is very good. This exhibition is very fruitful for us.”

Mr. Anup Kumar
Sales and Marketing Manager
(Metal Forming Division)
S & T ENGINEERS PRIVATE LIMITED

“We have had a good experience and good customers. We are certainly going to participate next year and bring more new technology here.”

Mr. Ravi Parmar
Director
PARMAR CNC MACHINES (INDIA) LLP

“We are participating for the first time to display our new circular saw cutting machine. We have a very good response.”

Mr. Kaushal Parmar
Managing Director
SOHIT ENGINEERING WORKS

How can GenAI be used for model risk management (MRM)?

Across the whole financial services industry, including my institution, teams have experimented with GenAI in pilot projects. It is deployed widely within organisations and experiments are ongoing elsewhere. GenAI gives beyond called for banks can use sophisticated models to interact with customer demands 24 hours a day. As for the person on the other side of the screen, GenAI can assist in the review of model validation reports and procedures for model risk. Some of the tasks in which it is used.

Are financial institutions developing their own generative AI?

I am unaware of any organisations building their own LLM, as it requires a lot of computing power, resources and money. Typically, companies are using technology developed by vendors. For instance, one popular vendor is OpenAI, which created ChatGPT and an underlying LLM which they refer to as GPT-3.5 or GPT-4, indicating the progression of advancement in the model. As open source, anyone with an API can gain access to the model, so there is currently no need for institutions to build their own language model. This means they must decide which vendor they trust to use for their organization.

What do you see as the future of AI and LLM within financial scope for its usage and how could this impact banks' operations?

As generative AI develops and advances, the industry will continue to embrace it. GenAI has the potential to improve the quality of work produced and increase productivity, making a significant difference to the operations of financial institutions. It is therefore a good idea for all institutions to explore how they can leverage this new technology. We are still in the initial phase of experimenting where the aim is to help people to do their job better. The automation of AI can be used for mundane and repetitive work, yet impactful tasks. To achieve this, there must be a focus on training these employees on using generative AI.

K AND D
COMMUNICATION LIMITED

CREATING BUSINESS OPPORTUNITIES FUELING ECONOMIC GROWTH

Founded in 1997, K AND D COMMUNICATION LIMITED (KDCL) is one of the pioneering trade fair organizers in India. Over a span of last 25 years KDCL has organized 75+ national and international exhibitions all across India in different industrial segments. Today, KDCL is proud to provide turnkey solutions for events. KDCL is most renowned for ENGIMACH which is one of India's most successful international exhibitions in the engineering and manufacturing sectors for the last 25 years.

KDCL particularly prizes the trust of companies launching new ideas, products and services. These companies rely on KDCL exhibitions for the successful introduction of their innovations. KDCL has developed the Helipad Exhibition Centre (HEC) in Gandhinagar, the capital of Gujarat. Equipped with world-class infrastructure, HEC is the one of the largest exhibition centres in India.

As a trade fair organizer, KDCL has ably performed its role as a powerful catalyst to industrial growth and prosperity for our country.
