The Grand Success of 16th **ENGIMACH** India's Premier Technology Showcase

From left: **Mr. GURURAJ D PATIL**, Managing Director, EMAG INDIA PVT. LTD.; **Mr. YUKI KITA**, President & CEO, FANUC INDIA PVT. LTD.; **Mr. HIREN JADEJA**, President - Marketing, JYOTI CNC AUTOMATION LTD; **Mr. ANIL BHARDWAJ**, Managing Director, MAZAK INDIA PVT. LTD.; **Mr. TOSHIYUKI SUZUKI**, Vice President, FANUC INDIA PVT. LTD.; **Ms. DHARA GOHIL**, Director, KAND D COMMUNICATION LTD

The flagship event of K and D Communication Limited, Engimach was held from 6th to 10th December 2023 at the Helipad Exhibition Centre in Gandhinagar, Gujarat. It was recognized as a PRE-VIBRANT GUJARAT EVENT.

The mega event was spread across 72,000 sq. m. in 12 centrally air-conditioned halls, over 5,000 products were on display from exhibitors including those from the USA, Germany, Japan and China apart from the large number of MSMEs and industry leaders from India! The mega event comprised of the 16th ENGIMACH and four concurrent and co-located shows. The 6th INDIA TOOLS showcased the latest precise tooling for

modern machine tools. The CASTINGS & FOUNDRIES EXPO INDIA brought together 39 Indian foundries and national and international buyers creating a unique INDIAN CASTINGS BAZAR! The STARTUP CONCLAVE EXHIBITION featured about 280 startups and provided a golden opportunity for innovation and investment. The INDIA SMARTTECH CONFERENCE 2023 presented smart solutions in six key sectors. The event saw massive attendance from business visitors, including international delegations and sourcing teams from various industries.

The 16th ENGIMACH aligned perfectly with India's economic aspirations,

contributing to the 'MAKE IN INDIA' initiative. In line with the country's goal of achieving a USD 5 Trillion economy by 2026-27, the event continues to play a pivotal role in bringing together the best of suppliers, buyers, and policymakers in the manufacturing industry since 1997. Key industry segments covered at ENGIMACH include Engineering Machinery, Machine Tools, Additive Manufacturing, Robotics and Automation, Electrical & Electronics, and more.

ENGIMACH has played a significant role in Gujarat and India's industrial growth and is part of the corporate calendars of many in the industry.

K and D Spearheads Destination Uttarakhand Global Investors Summit 2023

In a groundbreaking partnership with the Government of Uttarakhand, K and D took the lead in organizing the highly anticipated Destination Uttarakhand Global Investors Summit 2023. The summit, showcasing the state's potential for global investments, hosted illustrious panel discussions, conferences, roundtable deliberations, presentations, and roadshows in various parts of India and overseas along with one-to-one business meetings. Hosted amidst the beautiful backdrop of the Forest Research Institute in Dehradun, the summit brought together leading investors, senior government officials and local business communities for interactions on the

investment opportunities in Uttarakhand.

Prime Minister Shri Narendra Modi inaugurated the summit in the presence of Chief Minister of Uttarakhand Pushkar Singh Dhami and other prominent dignitaries.

As part of the event, K and D curated an engaging exhibition, providing a plat-

form to showcase the diverse investment opportunities in Uttarakhand. The exhibition served as a hub for participants to explore the state's unique offerings across various sectors. Destination Uttarakhand Global Investors Summit 2023 marked a crucial step in positioning the state as a prime investment destination.

Helipad Exhibition Centre proudly hosts the Vibrant Gujarat Global Trade Show 2024

The Vibrant Gujarat Global Summit is a biennial event organized by the Government of Gujarat. It was first held in 2003 with the primary objective of promoting Gujarat as an investment destination and fostering economic development. The summit has since gained prominence as a significant business and investment platform, attracting attention from both national and international participants.

The Global Trade Show is an integral

component of the Vibrant Gujarat Summit, providing a dedicated space for exhibitors to showcase their products, services, and innovations. The exhibition, held at Helipad Exhibition Center between 9th to 13th January 2024, covered a wide range of industries, including manufacturing, technology, infrastructure, agriculture, healthcare, and more. It served as a hub for businesses to connect with potential partners, investors, and customers.

K and D Successfully Orchestrates Stellar Government Events: Uttar Pradesh Global Investor Summit & Trade Show and G20-W20 Conferences in Anand

UP GLOBAL INVESTORS SUMMIT NEW INDIA'S GROWTH ENGINE 10-12 FEBRUARY, 2023 LUCKNOW

UP GLOBAL TRADE SHOW 10 to 14 FEB 2023 • LUCKNOW

The Uttar Pradesh Global Investors' Summit 2023 was held with great enthusiasm and optimism amongst the investors, government officials and other stakeholders. At the summit, the UP government highlighted its commitment to making Uttar Pradesh a competitive investment destination by emphasizing its pro-business policies, attractive tax regime, abundant resources and robust infrastructure. They also presented comprehensive data regarding the potential of the state's industries in sectors such as agriculture, manufacturing, tourism, IT/ITeS, renewable energy and more.

Moreover, the UP government also provided a detailed overview of various incentives and benefits that are available for investors in Uttar Pradesh such as fiscal exemptions on capital investments and financial assistance for setting up businesses in the state.

In conjunction with the summit, a grand exhibition was organized to provide a global platform for businesses to showcase ideas, innovations and the latest technological advancements. It facilitated meaningful discussions, collaborations as well as joint ventures amongst its participants.

K and D Communication Limited Expands Horizons with Castings & Foundries Expo India and India Smarttech Conference

Indian castings are globally competitive in quality and cost, with India's foundry industry ranking second worldwide. The Castings and Foundries EXPO India showcased tremendous potential in the Indian foundries and castings industry. The inaugural edition drew top buyers from India and abroad and also exhibitors from various parts of the country. Similarly, aligning technological innovation is very crucial for the manufacturing sector. With the arrival and acceptance of AI and Industry 4.0 in its infancy phase Smart Manufacturing is the future if India wants to be among the top global economies of the world. India SmartTech Conference is an initiative to bring leading tech developers and innovators from India and around the world and share their knowledge and know-how.

MACHINERY DRIVES

Machinery OEMs are the backbone of our industries, creating cutting-edge equipment and systems that fuel innovation and productivity. ABB's advanced portfolio of PLCs, drives, motors, services, and support ensure top reliability, quality, and versatility. Partnering with us means investing in highest levels of support and quality, and collaborating with people who understand your designs and bring them to life. From planning to assembly, commissioning and beyond, we offer world-class support.

- Scalable and fit-for-purpose solutions.
- Flexible hardware and programming for an optimal solution.
- Compatibility with different motors and automation systems.
- Domain expertise with ready-made control programs for different applications.

LASER MARKING MACHINE

Metal is complex: conductive, reactive, composed of chemicals, alloys... When you are looking for a rotary or laser marking machine for metal, the best solution will depend on the type of metal you will be engraving:

- Stainless steel aluminium
- Anodised aluminium
- Hardened metals
- Steel alloy
- Titanium and titanium alloys
- Carbides
- Brass
- Copper
- Precious metals
- Coated metals
- BRIGHTECH LASER MANUFACTURER AND OFFERED SUITABLE LASER MARKING MACHINE FOR YOUR APPLICATION.

INDUSTRIAL LASER MACHINES

In the heart of Ahmedabad, a trailblazing venture, DOLPHIN LASER MACHINE PVT. LTD. established in 2015, stands as a premier Manufacturer and Exporter of all types of Industrial Laser Machines like Fiber Laser Marking, Cutting, Welding, and Cleaning Machines, CO2 Laser Marking Machines, Jewellery Machines, and custom SPM machines. These machines find applications in various industries such as Automobiles, Pump, Valves, Engineering, Hardware, Pharma, Surgical, Tools, LED, Cable-Wire, Pipe, Optical, FMCG, Sheet Metal, Gift Article, and more than 100 other applications. With 25 branches spread across India for local service support and 7 branches internationally, Dolphin has established a strong presence. The company take pride in serving over 3500 + successful customers worldwide, including renowned names such as Aditya Birla, Reliance, L&T, Tata Steel, and many more

VERTICAL STORAGE SYSTEM

Global supplier Rabatex Industries since 1962....

Having pioneer positioning in the textile machine manufacturing with global presence in more than 36 countries. Having advance manufacturing state of art plant based at Ahmedabad with total direct employment of 380 and indirect employment of 500.

Vertical storage systems offer significant space-saving benefits by maximizing vertical space, allowing for higher storage density. Moreover, the integration of advanced software facilitates seamless inventory tracking, reducing the reliance on manual record-keeping. This not only enhances accuracy but also improves overall efficiency.

The Rapid VLM is a testament to Rabatex Industries' commitment to advanced technology, offering a seamless and long-term storage solution. With its reputed make, this system not only optimizes space but also ensures smooth operations. The integration of state-of-the-art technology and customizable features positions Rapid VLM as a versatile and efficient solution for businesses looking to enhance their warehouse management, streamline operations, and maximize storage capacity.

LASER MACHINES

Sigma Mechatronics Pvt. Ltd. is one of the Leading manufacturer, supplier, sales & service provider of quality oriented Laser Machines under make in India concept at Ahmedabad-Gujarat-India. The Company is serving into Laser industries for over 25 years by manufacturing and supplying of Fiber Laser Cutting / Marking / Welding / Cleaning and Diamond Laser Cutting 4P/8P Machines.

Why Choose Us

- Rich Experience in Laser Industry
- Our own Design since 2015-16 with Unique Working Area
- Strongest and Rigid Structure followed with all necessary process for long last durability.
- Best after sales service support in Entire INDIA.

HYDRAULIC SYSTEMS & SPARES

Twin Hydraulics is a one stop solution for your all hydraulic needs. We are the manufacturer of Hydraulic Power-packs, Hydraulic Cylinder as well as

Manifold blocks. On top of that we are the authorized dealers of Veljan Denison Ltd, THM, Huade, Hilectro, STF, Sumitomo and Alphasigma (for Hose pipe). We manufacture Hydraulic Power-Packs as per customer's requirements, We already supplied our Hydraulic Power-Packs in many machines

1. Special Purpose Machines
2. Fly-ash Bricks Machines
3. Machine Tools
4. Fixture Clamping/ declamping
5. Steel Plants
6. Hydro Power Plant
7. Automobile Industries
8. SPM press machines
9. Pharmaceutical Industries
10. Chemical Industries
11. Foundries

In the World of Hydraulics with having the rich knowledge of hydraulics and experienced team of Engineers, we are happy to serve you for all kinds of hydraulics requirements that you require

DEBURRING & FINISHING MACHINE

Introducing the SAMARTH Classic Series Deburring & Finishing Machine, a cost-effective solution for precision metal finishing. Ideal for grinding and radius edging on sheet metal and flat parts, this automatic feed-hard machine ensures sharp edges without damaging the belt. With head choices ranging from 150mm to 1600mm, it caters to diverse industrial needs. The machine features separate electrical control, adjustable conveyor speed, and a dry operation dust extraction system. Offering versatility, it works seamlessly on steel, stainless steel, aluminum, and more. Trust SAMARTH for uniform sanding, deburring, and superior surface treatment in one pass. Experience efficiency with automated abrasive belt tracking and easy roller replacement.

Mr. Sheetal Kaloda,
Cluster Head
Western Region

We are participating for the first time. The response is wonderful and we feel that this will be a good success for us. Definitely to reach out to many customers in various segments where our footprint is not there I think such exhibitions will definitely provide a good platform for us. I personally feel this is going to be a good platform for us when I look at the turnout of various customers. The quality of customers and the seriousness from the customers is wonderful. So definitely we look forward to participate in ENGIMACH during the next edition. ”

Mr. Jigar Gajjar
Regional Manager, Gujarat

In ENGIMACH, we are participating since 16 years. Here we have displayed few new and recently launched products like VP 3000 for Pump Application and CNC Controller. Compared to last year, this year the footfall is quite good so we are quite impressed and the arrangement and everything is quite good. This year we are Silver Sponsor and definitely we will have to participate in this exhibition again.

Mr. Vishal Pratap
Manager Marketing
(Machine Division)

Our key customers are from the Automotive Sector, Furniture Industry, Defence Segment, Railways, Steel & Chemical Plants, White Goods and Transmission Tower Line Equipment. We are associated with ENGIMACH since more than 10 years and it's a good experience to be here. We have got a good footfall of regional customers, pan-India and overseas as well. We would like to meet our existing customers as well as new customers so we will definitely be participating in next ENGIMACH as well. ”

Ms. Ashwini M. Hugar
Sr. Executive - Marketing,
Sales Coordination &
Administration

It is a good experience. There has been a good response from the customers, we are getting good new prospective contacts and we are generating good quality leads from ENGIMACH. So we will definitely participate in the upcoming ENGIMACH in 2025. ”

Mr. Rakesh Patel
Regional Sales Manager
- Gujarat

Mainly we are focusing on automotive and certain non-automotive products like aerospace and hydraulics. For Indian growth definitely ENGIMACH is contributing and EMAG can contribute by giving turnkey solutions to local customers. For example, we have some good solutions for two-wheeler and four wheeler electric vehicles. ”

Mr. Varun Arora
General Manager

This is the 4th or 5th edition in which we are participating and it has been a good show for us. We had some good customers visiting us, some good leads received and hopefully in 5 days we'll have a lot of customers to serve. I think ENGIMACH is providing a platform where lot of customers are meeting suppliers and giving opportunity to companies like us where we can showcase our products and help customers in enhancing their automation and IOT needs. For sure, we'll be here, hopefully in the same location and we'll continue to be participating in ENGIMACH. It's a good show. ”

Mr. Yuki Kita
President & CEO

This is the 5th time we are participating and I'm very happy to participate. Gujarat state is a very much important state for industry growth in India. Of course, we will come back here to participate in the ENGIMACH show because this show is one of the biggest Machine Tools show and so for us very critical opportunity to introduce our products. ”

Mr. Nithin M Naidu
General Manager, India

ENGIMACH is very well known to me for quite some years not only from my present organization but also from my previous organization and we are very happy that we are here displaying our machines here. We are thankful to ENGIMACH for providing us this platform to display our products, to show the strengths of our machines and the technology that we offer to customers. I personally feel that the whole event would be quite successful and this will be quite fruitful not only for us but to everybody here. We will definitely be back here in 2025 and I think we would display more machines than what we have today here. ”

Mr. Pravin Manchanda
Head, Bawal Works

Our experience this year is really good at the ENGIMACH and we have noticed that the footfall is really good. ENGIMACH gives the Indian manufacturer the platform where we introduce and display our products to the inner as well as the outer world. Depending on the market situation and the exports of the metal forming world we would like to participate in 2025. ”

JANATICS
Pneumatic

Mr. Amish Bhavsar
GM – Marketing

“ We are participating for the 16th time this 16th ENGIMACH! It was surprising that there was heavy rush in the morning session of Day 1 itself! This is a very good platform where all the customers are coming over here and we can generate very good revenue. So, as far as the economy is growing, platform like ENGIMACH definitely helps us to grow further. Regarding my participation in the next edition of ENGIMACH in 2025, I would like to book it today! ”

JYOTI

Mr. Hiren Jadeja
President - Marketing

“ Since the second edition we have been participating in ENGIMACH with the state-of-art technology products from metal cutting space. Since today is the first day it is not suitable to comment but considering today’s crowd it seems it would be a game changer event for us! As far as the footfalls are concerned, lots of our old customers as well as the new customers they are visiting us. Surely, 100% percent we will be there in the next edition of ENGIMACH! ”

LASER TECHNOLOGIES™

Mr. Rakesh Agarwal
Managing Director

“ This is our 3rd time participating in ENGIMACH and everytime we are growing so we are increasing the booth size. I believe this kind of exhibition is playing a pivotal role in the growth of Indian manufacturing sector because customers can see what kind of technologies are there in the market which they can use in their manufacturing to increase the production, to increase the quality and be more competitive on the global market. Regarding participating in the next edition of ENGIMACH, of course, we will be there. As I told you, may be with 50 to 80% more space! ”

LMW®

Mr. Indraneel Bhattacharya
Vice President
– Sales & Marketing

“ We are there from the first ENGIMACH and we opened our account in Gujarat with ENGIMACH exhibition! The first order came from there. Before that, we were not present in Gujarat! India is going to become the world factory and manufacturing is at a high uptrend. To support that, Machine Tools companies have come up in a big way so that now we can replace the imports which used to be very high! If you take the product we manufacture, these are machines which are now mostly procured by Indians from Indian companies. Regarding the next edition of ENGIMACH 2025, we will come back 100% because it is very important for us to launch new products in this market. We do get a lot of leverage from this exhibition and will continue to come. ”

MAX PHOTONICS

Mr. Himanshu Prajapati
Sales Head - India

“ Although we are first time participating in ENGIMACH, we had previously participated in INDIA MACHINE TOOLS SHOW (IMTOS) and our experience there was very good. We are getting very good business in this exhibition also. So we are very confident we will come again in ENGIMACH 2025 and also participate in other exhibitions of the same organizers. ”

Mazak

Mr. Sagar Kheradiya
AGM Sales (Gujarat)

“ Mazak is a Japanese company with H.Q. in Pune and an office in Gujarat also. Our VC – EZ which we were earlier dispatching from Japan and Singapore, we are now manufacturing in India at our Pune plant! We are thankful to ENGIMACH for giving us this platform and our experience is very good and since many years we are participating in ENGIMACH. ”

Phillips
MACHINE TOOLS

Mr. Gautam Goswami
Deputy General Manager
– Gujarat

“ We are associated with ENGIMACH since last 25 years. We have always showcased new technologies and obtained new customers here. So the overall experience of ENGIMACH is always good. Yes! We prefer ENGIMACH always first! ”

PROARC
For the non-stop you

Mr. Kamlesh Thakur
Director

“ We are participating for the 4th time and our experience has been good. We are happy to see it is growing with more and more participants. We see now that this is as big an event as IMTEX in Bangalore or any other exhibition in India! Our team in Gujarat is very excited about participating in every exhibition of ENGIMACH which is coming up in future. ”

Pioneering a new future,
with you all

YAMAZEN

Mr. Praveen Daddimani
Senior Regional Manager
- Service

“ We have participated in ENGIMACH four times and we have been much encouraged. We started our business in Gujarat from the ENGIMACH edition of 2017 and by now almost 300 machines have been installed! We definitely see a lot of new customers in ENGIMACH who are here to see different new technologies helpful for their products. Yes definitely we would like to participate again in ENGIMACH because of this very good performance of bringing new customers. ”

Vibrant Gujarat - 'Startup Conclave 2023': Igniting Innovation and Investment

Vibrant GUJARAT
STARTUP CONCLAVE 2023
INNOVATE | ELEVATE | ACCELERATE
6 - 10 DEC | GANDHINAGAR
Concurrent with **16th ENGIMACH**

Vibrant Gujarat, a renowned event driving investments and economic growth, saw a precursor in 'Startup Conclave 2023.' This event, held in December 2023, exceeded expectations, uniting startup investors and angel networks, highlighting India's thriving startup scene.

The conclave stood out by offering practical insights to investors, serving as an informational compass for navigating the startup landscape. It provided startups with access to new markets, risk capital, and mentorship.

Hosted at the Helipad Exhibition Centre in Gandhinagar by the Government of Gujarat's Education department, it featured an exclusive startup exhibition, attracting unicorn startups, venture capitalists, and business figures, establishing itself as an innovation and investment hub.

The inauguration featured Chief Minister Shri Bhupendrabhai Patel and Union Minister Shri Rajeev Chandrasekhar, with Minister Rushikesh Patel also present. Shri Mukesh Kumar IAS and Shri Rajesh Kumar Singh delivered addresses, while Shri Raj Kumar IAS and Shri Banchhanidhi Pani shared insights, marking a successful convergence of government officials, industry leaders, and stakeholders.

Over four days, 280 startups showcased their innovations, attracting over 30,000 visitors across various sectors. More than 30 incubators from educational

institutions actively participated, providing startups with networking and investment opportunities.

The collaborative efforts between the Startup Conclave and Engimach resulted in over 100 networking sessions, fostering meaningful B2B engagements and growth opportunities for enterprises and startups.

With nearly 30,000 visitors, the exhibition went beyond showcasing innovation. It became a dynamic hub where ideas met investors, businesses connected, and the entrepreneurial ecosystem thrived. This initiative celebrated the present while setting the foundation for a promising future in technology, business, and collaborative innovation. Vibrant Gujarat - 'Startup Conclave 2023' has ignited innovation and investment, promising a brighter future for Gujarat's entrepreneurial landscape.

Get Ready for Innovation and Excellence: The 7th Pune Machine Tools Show by K and D Communication Limited is Here!

Pune, a pivotal manufacturing hub for automotive and ancillary industries, boasting production units of esteemed brands such as Mercedes Benz, Volkswagen, TATA, Mahindra, MAN Trucks, Jaguar and Range Rover, Bajaj, and more, presents an optimal backdrop for the 7th Pune Machine Tools Show (PMTS), Scheduled for 25-28 April 2024 at the Auto Cluster Exhibition Centre, Pune. This event is a unique platform for unveiling innovative advancements in the machine tools sector, aligning with Pune's status as a manufacturing nucleus.

Hosting approximately 4,000 automobile and ancillary production units, Pune's strategic importance is augmented by India's burgeoning stature as a global manufacturing powerhouse, fuelled by initiatives like "Make-in-India" and "Atmanirbhar Bharat." With institutions like the Automotive Research Institute of India and the Auto Cluster Development & Research Institute located here, Pune's role in India's ascent to the world's third-largest automobile market by 2026 is crucial. The 7th PMTS is set to catalyze business growth, offering a platform for global networking, understanding the latest industry trends, and fostering new business relationships.

The ribbon cutting ceremony by (from left) **Mr. Rohit Shah** - CEO - Bhavya Machine Tools LLP, **Mr. D. Kannan** - Vice President - Sahajanand Laser Technologies Limited, **Mr. Chandra Sekar** - General Manager - S&T Engineers Pvt. Ltd., **Mr. Dinesh Chaudhary** - MD - Energy Mission Machineries (India) Pvt. Ltd. and **Mr. Indraneel Bhattacharya** - VP - Marketing - Lakshmi Machine Works Limited

The 7th PMTS is an unparalleled opportunity to engage with the latest in automotive and machine tool sectors, offering invaluable insights and avenues for business expansion. This edition, superior in scale and scope, is set to unveil cutting-edge developments in the global machine tools industry

Key investment highlights in Pune's automotive sector

- Aim to elevate the auto industry to INR 15 trillion by end of 2024

- Projected CAGR of 49% from 2022-2030 in the EV market
- Anticipation of approximately 5 million direct and indirect jobs in the EV sector by 2030
- EV financing market estimated to reach \$50 billion by 2030
- A 70% increase in production capacity planned over the next two years by Mahindra group
- Bajaj Auto to invest INR 500 crore in its EV segment in FY 2024

K and D Communication Limited presents the prestigious 9th Rajkot Machine Tools Show

Rajkot Machine Tools Show is the premier exhibition in western India's machine tools hub, catering to the manufacturing and machine tools needs of diverse industry sectors in Gujarat and nationwide. This event showcases the latest manufacturing technologies and machine tool solutions, empowering both large industries and SMEs to enhance their manufacturing capabilities. The expo encompasses a comprehensive range of machine tools, ancillary industries, and essential technologies for tomorrow's manufacturing needs.

From engines, pumps, and machine tools to bearings, auto parts, castings, and even Make in India rifles, Rajkot is a

versatile manufacturing hub. The city's industrious DNA has led to the development of well-defined clusters for Engineering, Machine Tools, Bearings, Auto Parts, and Foundry, among others. The Machine Tools cluster alone boasts 325 operational units with a turnover of approximately ₹800 crores and a workforce of about 10,000 employees.

The district is home to approximately 43,711 registered industrial units, including 86 medium to large-scale industries and over 30,000 small-scale and micro-industries spread across 16 industrial areas. Rajkot Machine Tools Show exemplifies the vibrant manufacturing landscape of this region, making it a hub for innovation and industrial growth.

Rising Investment leading to Rising Domestic Demand:

- 20 automobile companies to invest Rs. 45,000 crores
- Aim to double auto industry size to INR 15 Lakh Cr by end of year 2024
- Tata Motors to invest Rs. 24,000 crores in passenger vehicles (5 years)
- Increasing auto demand due to rising per capita income
- Estimated US\$ 132 billion capital expenditure for Indian Railways modernization
- Over US\$ 1.4 trillion in infrastructure investments (next 5 years)
- Investments in various sectors like Heavy Engineering, Ship Building, Consumer Appliances, Textiles Machinery, Construction Equipments, Agricultural Equipments, Medical, General Engineering, etc.

K and D Communication Limited Presents: Inaugural Punjab Machine Tools Show

As India and the rest of the world unite to felicitate the entrepreneurial enthusiasm and industrial productivity, it is time to unfold the unearthed potential of the already sparkling diamond Punjab, bestowed on the head of our country and at a strategic location on the Asian terrain.

The Indian machine tools sector offers

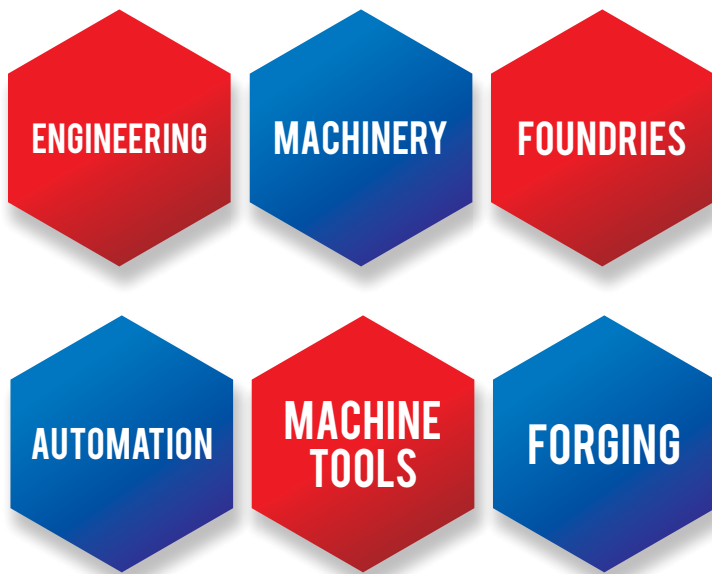

several opportunities for investment. Given the current gap between demand and supply, there is a clear need for adding capacities in this sector. The industry is moving towards increasingly sophisticated CNC machines, driven by demand from key user segments, such as automobiles and consumer durables, Aerospace, etc. Punjab, along with its neighbouring states has been instru-

mental in catering to this demand.

Punjab Machine Tools Show 2024 will endeavour to bring together new ideas, products, innovations, industrial breakthroughs and promotional excellence.

Punjab Machine Tools Show 2024 shall focus on the following sectors to create the best of business experiences

CELEBRATING EXCELLENCE IN

Key Industrial Clusters:

- The Forging Industry Cluster at Ludhiana and Jalandhar
- Sewing Machine & Parts Industry Cluster, Ludhiana
- Auto Parts Industry Clusters, Phagwara, Jalandhar and Ludhiana
- Agricultural Implements Industry Cluster, Moga

CHEERS

Celebrating & Awarding the best of the industrial goods, processes and practices.

OUTSHINE

Industrial show & display arena for brands to showcase their best products & deals.

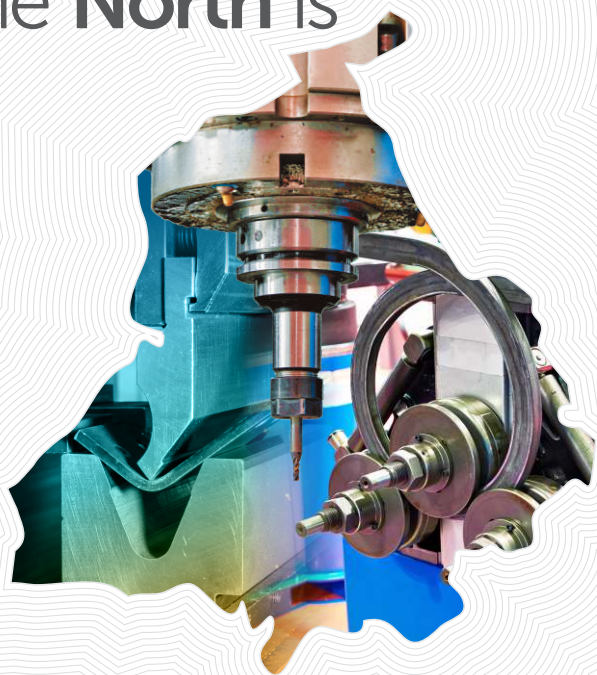

NETWORK DEEPLY

Connect with your industry peers, share insights and trends. Open new possibilities for collaboration.

SPARKS

Debates over Industry's most pressing issues & controversial matters, hosted by students and colleges from Punjab's leading Universities.

Growth is where
the North is

The 9th India Machine Tools Show at Pragati Maidan (New Delhi) was a great success

Held from 18 to 21 May 2023 at Pragati Maidan in New Delhi, India Machine Tools Show 9th edition was a great success in terms of visitors and exhibitors' participation. India Machine Tools Show over the years has evolved from a regional to national to a premier international-level tradeshow. This year it hosted international and national delegates of 250.

The Indian Economy is heading toward achieving the goal of 5 trillion USD. The Government is leaving no stone unturned with various its initiatives like Make in India, Aatman Nirbhar Bharat, and massive investments in infra & R & D projects. The combined budget allocation for ministries associated with infrastructure has seen a substantial rise, escalating from approximately INR 3.7 lakh crore in the fiscal year 2023 to

INR 5 lakh crore in the fiscal year 2024. India's transport sector is undergoing significant growth, with projects worth INR 69 lakh crore across various sectors, primarily in Roads & Highways, Railways, and Urban Public Transport. The government's ambitious expansion plans create ample investment opportunities for both domestic and foreign investors. Sustainability is a key focus, emphasizing eco-friendly transportation solutions. Private sector participation is crucial, with the government's supportive policies making India an attractive destination for foreign investors. The transport industry offers prospects in road infrastructure, railways, airports, waterways, and logistics parks. Private entities can leverage partnerships, innovative financing, and advanced technologies to accelerate infrastructure investments, driving the sector's mod-

ernization and growth.

The future of India's Machine Tools Industry looks promising due to rising manufacturing, technological advancements, global demand, government support, and a skilled workforce. Diversification into various sectors, R&D investments, and sustainability practices contribute to its growth. Challenges include global competition, technology adoption, infrastructure, and skill development needs. In summary, the industry's bright future is driven by technology and government support, but ongoing investment and skill development are crucial for global competitiveness.

India Machine Tools Show is dedicated to showcasing machine tools, industrial equipment, and manufacturing solutions. It is committed to facilitating industry connections, offering knowledge-sharing through seminars on trends and challenges, attracting global participants, fostering collaborations and investments, enhancing workforce capabilities, and aligning with industry growth policies.
